BOMBAY, BYCULLA, AND POONA.

"ROYAL CHARTER."

REFERRING to the QUEEN'S LAST BALL, "Truth" says:—

The supper is always most admirable at the Palace, and the Wines unexceptionable, notably the DRY CHAMPAGNE. In this respect the Queen sets an example which might very well be followed at other fashionable entertainments, at most of which the guests are ruthlessly poisoned with the cheapest abominations that can be bought.

The above refers to WACHTER'S ROYAL CHARTER.

The price is no higher than for other first-class Brands.

GOVERNMENT OF INDIA.

MARINE BRANCH.
MILITARY DEPARTMENT.

NOTICE TO MARINERS.
(No. 13.)

RED SEA—EAST COAST.
KAMARAN BAY.
SHOAL IN APPROACH TO SOUTHERN ENTRANCE.

THE Hydrographic Department of the British Admiralty has notified that the following information has been received from Commander Stopford, H.M.S. *Arab*, relative to a shoal lying in the approach to the southern entrance of Kamarán Bay:—

A sounding of 5 fathoms was suddenly obtained by the *Arab*, when passing Kamaran island on 19th December 1881; the next cast gave 4½ fathoms, when the undermentioned bearings were taken. Steering a W. S. W. course, 4½ fathoms was found for a distance of 2 cables, when the water deepened to 7, 10, and no bottom at 13 fathoms.

West extreme of Kamarán island .. N. ¾ E.
Ras el Bayadh ,, .. E. ¾ N.

These bearings place '*Arab shoal*' in, approximately, lat. 15° 14′ 30″ N., long. 42° 29′ 0″ E.

(*The course and bearings are Magnetic. Variation 5½° Westerly in* 1882.)

By direction of the Government of India,
A. DUNDAS TAYLOR, Comdr. (late I. N.),
Superintendent, Marine Survey of India.
MARINE SURVEY DEPARTMENT, Calcutta, 4th April 1882.

This Notice affects the following:—
BRITISH ADMIRALTY Charts Nos. 11, 8*d*, and 2523.
" " Sailing Directions, Red Sea Pilot (1873), page 194.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

By order of His Excellency the Right Hon'ble the Governor in Council,
M. W. WILLOUGHBY, Colonel,
Secretary to the Government of Bombay,
Marine Department.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MAY 4.

OUR Money market is gradually tending towards greater ease. The Directors of the Bank of Bombay at their weekly meeting yesterday reduced their rates for Loans and Discounts one per cent. all round, and in the bazaar money is undoubtedly becoming more plentiful. This, it is hoped, will have a favourable effect on business, especially in Imports during the next month or two. At the biddings for Council drafts yesterday in London only Rs. 18,40,000 were allotted at the old minimum of 1s. 8¼d., a little over 11 lakhs being for Bombay, and the direct shipment of Bullion for the week are given as £80,000. The amount offered by Government next week will only be 35 lakhs.

Exchange has not as yet been much effected by the easier Money market, and remains much at the rates of last mail. Accounts from home of Cotton for the past week have not been favourable. The market has been dull, although prices have not materially given way. Prices here have consequently been tending downwards, but at the reduction a fair amount of new business has been done by shippers. Seeds and Wheat have been reported in much the same position as before, but they have been in botter demand here at rather higher prices. The demand being stimulated by the necessity of completing old contracts and to fulfill shipping orders.

Imports have been much in their old position. Though supplies are not excessive, they are quite sufficient apparently to keep pace with the demand. Private advices report Manchester very dull, and that in some cases considerably lower prices have been accepted. This, combined with the good exchange, low freights, and no duties, has enabled some indent business to be put through.

GOVERNMENT PAPER is ¼ to ⅜ higher. Shares generally have been very firm. Spinning Shares were very dull last mail-day, but on Saturday a decided reaction set in, and they have since been daily recovering from the previous depression. Freights generally have been very firm. The rate by the Canal to Liverpool is being 35s., and by the Cape in sailing ships 52s. 6d.

COTTON from the Bhownuggur and Dhollera districts has been arriving very freely, and has been a good deal passed for sale both for ready lots and for delivery this month. The quality and staple of the Cotton now arriving is of a very satisfactory character, and at low prices considerable purchases have been made. Native lots especially have often been sold considerably under quotations, but these can hardly be given as market rates, as they are chance lots sold owing to holders being pressed for money and the purchases could not be repeated with any certainty. A large line of Fully Good (native selection) is reported at Rs. 191, and European at Rs. 193, and of Good sales have been made for May delivery at Rs. 189 to Rs. 190. Ready lots, both Bhownuggurs and Dholleras, classing Good or about it, have been sold at Rs. 185 to Rs. 188, according to the style of the Cotton offerred.

Broach is still coming in in small quantities, and good quality has been in considerable demand. European selection has been very steady at Rs. 230, and at this rate has found ready sale. There are, however, a great many mixed lots in the market, lots which have been regularly made up in Bombay with a proportion of inferior Cotton, and these are readily got at Rs. 226 to Rs. 227.

Oomras: the cop of these is now pretty well exhausted both here and in the districts. There has been some enquiry for the better grades, but these are now hardly to be got. Some sales have been reported at Rs. 188 for Fully Good Fair and Rs. 196 for Good.

The Dharwar crop is now beginning to come forward, and we expect considerable arrivals during the present month. Purchases have been made since the mail left at Rs. 199 to Rs. 200, but latterly Rs. 198 has been taken for considerable contracts.

The Crop of Westerns this season has been better, but it will be anything like the extent of the years before the famine. Sellers, however, have been offering it at Rs. 188 to Rs. 189 for Fully Good Fair, and at Rs. 183 to Rs. 184 for Good Fair; but we have not as yet heard of their finding purchasers. Quotations of the day are:—

Broach, Good	Rs.	223 to 226
Oomrawuttee, Good	,,	195
Do. F.G.F.	,,	188
Do. G.F.	,,	181

Bengal, Fine	,,	172
Do. Fully Good	,,	162
Do Good	,,	152
Do. Fully G.F.	,,	147

The following is the usual statement for the week:—

	1881-82.	1880-81.
Receipts from 26th April to 2nd May	69,082	48,652
Do. from 1st Jan. to do.	10,72,281	6,68,099
Shipments from 27th April to 3rd May	94,293	61,937
Do. do. 1st Jan. to do.	8,70,550	4,75,764
Cotton in the harbour	57,569	49,189

SEEDS.

Linseed has been in good demand at an advance of 2 annas on last mail-day, and at Rs. 5-6 about 50,000 to 60,000 cwts. are reported sold. Arrivals of the new crop are not yet so far on the same scale as last year. The following is our usual weekly statement:—

	1881-82. Cwts.	1880-81. Cwts.
Receipts from 26th April to 2nd May	78,303	1,12,280
Do. 1st Jan. to 2nd May	15,59,889	13,31,320
Shipments from 27th April to 3rd May	1,26,762	1,68,634
Do. 1st Jan. to 3rd May	14,50,04	10,53,214

Gingelly Seed has been freely dealt in ordinary quality at Rs. 32 to Rs. 32. White Hinghunghat has been done at Rs. 35 to Rs. 35½, and Red at Rs. 34.

Rape is firmer, and prices are about 1 to 2 annas higher. Guzerat Yellow we quote Rs. 5-14 and Red Rs. 5-2 to Rs. 5-3.

Groundnuts are in some demand at Rs. 24½ to Rs. 25.

Castoroil Seed is selling in small quantities at Rs. 25 to Rs. 25½.

Poppy Seed.—There have been considerable sales at Rs. 5-6, about 5,000 cwts. being reported.

WHEAT is not yet arriving in the same quantities that it did at this time last year, but it is to be hoped that this may change as the season goes on. What does arrive meets with a ready sale market at current prices, which are for No. 1 Soft White Rs. 32 to Rs. 32½, Hard Red at Rs. 24 to Rs. 24½, Yellow at Rs. 27 to Rs. 28, Khandwa at Rs. 29 to Rs. 30, and Jabbulpore White at Rs. 29 to Rs. 29½. The receipts and shipments now stand as follows. Our receipts up to date since 1st January are more than last season, but this is owing to the large imports of the old crop for the first month. So far the new crop receipts show a decided falling off which, as we have noted above, is also the case with Linseed.

	1881-82. Cwts.	1880-81. Cwts.
Receipts from 26th April to 2nd May	1,78,195	3,78,541
Do. from 1st Jan. to 2nd May	30,23,691	23,82,780
Shipments from 27th April to 3rd May	3,83,147	3,31,458
Do. from 1st Jan. to 3rd May	40,50,603	18,57,128

PIECE-GOODS continue very much in their old position. There is a fair demand at current rates from second hands. A good many Indents for Shirtings have been put through during the past week. Private advices report stocks rather accumulating in Manchester, and with firm offers considerably lower prices than quotations have been taken. The shipments to the East for April are said to be moderate, though the exact figures have not yet reached us; and if the case in money continues, we hope to see a better demand for goods before the rains.

YARNS are steady, and 40s Mule and 30s Water have been in fair request at Rs. 8¼ to Rs. 8½, and Rs. 8 to Rs. 8¼ respectively. Finer numbers are for the time quite neglected.

COALS.—The market keeps very steady, and we quote Davison's Rs. 14½, Cardiff Rs. 15, and Laird's Rs. 14, all alongside. Of sales we have heard of one cargo of Cardiff sold to arrive at Rs. 15, and another has been re-sold at the same rate.

METALS.

Copper Brazier is rather scarce and in demand for immediate delivery. Sales are reported from Rs. 46½ to Rs. 47½ for ready lots. Very large sales are reported to arrive at Rs. 45½ to Rs. 45¾.

Wallaroo has also been placed for forward delivery at Rs. 42.

Yellow Metal.—Braziers is also in good demand and scarce for ready lots. It can be sold on the spot at Rs. 36½ to Rs. 37. To arrive, second class brands have been done at Rs. 35.

Spelter is in large supply, but the very low prices accepted have attracted buyers, and a good deal have been done in the article on the spot at various prices from Rs. 7-8 to Rs. 7-12.

Government Paper has improved to 101¾ for fours and 108½ for Fours-and-a-half per cents. Cheaper money and improved quotations from Calcutta are no doubt the chief causes of the advance. A considerable business has been done during the week, especially in 4 per cents.

SHARES generally have been firm. Bank of Bombay has been done at Rs. 781½, National Bank at Rs. 96, and Colaba Land at Rs. 785. *Press* Companies are firm at about old quotations, and the same may be said of *Miscellaneous* shares. Bombay and Burmah Trading are reported rather weak at Rs. 2,465. In *Mill* shares a strong reaction set in immediately last mail left, and it has continued up till yesterday afternoon, when the improvement rather underwent a check or at least for a time seemed to come to a stand. The Mills, shares of which had previously fallen most, have had of course the greatest improvement, and of these we advance quotations, as will be seen below, from Rs. 10 to Rs. 80 per share in many cases.

EXCHANGE opened firmer after last mail left and continued till yesterday very steady at a slight advance of about 1s. 32d. Not many bills were offering, but the high quotations of Silver from London made buyers stiff. To-day, however, the reduction in the Bank rates both here and in Calcutta has brought out buyers more freely, and we close as follows:—

Tel. Demand.	3 months'	4 months'
Banks.. 1s. 3 5-32d.	1s. 3 13-32d.	1s. 3 15-32d.

COLONEL HANCOCK, Consulting Engineer for Railways to the Government of Bombay, goes on six months' leave from the 19th inst.

DR. CARTER acts as Principal and Professor of Hygiene, Grant Medical College, during Dr. Cook's absence on furlough.

WE understand that the medical fraternity of Bombay propose to give an entertainment to Dr. Cook previous to his departure from Bombay.

THERE were no deaths from cholera in Bombay city during the week ended on Tuesday last. In the corresponding week of last year there were 5 deaths from cholera, and the average deaths that disease in the corresponding weeks of the last five years is 23.

IN the Presidency, there is cholera at Rajkot, Thanna, Belgaum, and Satara. In Satara the disease appears to be increasing, there being during the week under review 269 cases and 113 deaths reported. From Belgaum it is announced that there were 21 deaths in Chikodi and Gokak talukas. In Thana (Panvell and Salsette talukas) there were only 5 cases and 1 death; but it is a bad sign to see the disease re-appearing here after it had apparently been stamped out. A month or two since many deaths occurred in this district from cholera. There is slight cholera, also, at present in one village of Indapur and in one village of Purandhur, Poona collectorate.

LADY BAYLEY does not go with her husband to Simla, apparently. We see she is to go home by next week's mail-steamer, the Clyde.

MR. J. A. BAINES, Deputy Superintendent of Census, Bombay, goes on leave for three months from the 21st inst., and Mr. G. W. Forrest, B.A., Professor of Mathematics in the Deccan College, is appointed to the charge of the census office during his absence.

MRS. CARNEGY last evening distributed, at the Town Hall, the prizes won by the successful competitors at the recent meeting of the Rifle Association. A large number of visitors were present. Short speeches were made by General Carnegy, General Hewett, and Major Bayley.

AN interesting ceremony took place at the Parel Workshops last evening, when an illuminated address, signed by about 3,000 employés of the B. B. and C. I. Railway Company, was presented to Mr. F. Mathew, the retiring Agent and Chief Engineer. A large silver vase and a salver were also to have been presented, but as these articles had not arrived at the time of the meeting the actual gift had to be deferred. A handsome silver tea service of Cutch-work was presented to Mrs. Mathew. Mr. Carroll, by whom the presentation was made, spoke of Mr. Mathew's popularity, and asked him to allow the committee to have his bust sculptured in marble and placed in the Parel Mechanics' Institute, and also to permit his portrait to be painted and presented to Mrs. Mathew. The address was then read by Mr. Duxbury, Chairman of the Committee, and was suitably replied to by Mr. Mathew. A report of the proceedings will appear in our issue of to-morrow.

IN the suit brought by Mrs. King against Captain J. S. King for a dissolution of marriage, the Hon'ble Mr. Justice Bayley gave his decision yesterday at the High Court on the point whether or not the decree *nisi* dated the 26th July, 1881, should be made absolute. Since the decree *nisi* had been obtained affidavits containing allegations against the petitioner were filed, and Mr. A. F. Turner applied on behalf of the respondent to intervene. The application came on for hearing on the 10th April, when his Lordship decided that Mr. Turner had no power, under the Indian Divorce Act, to intervene, and also ordered that the affidavits should be taken off the file. His Lordship said, in the course of his judgment yesterday, that the court would be neglecting its duty in doing such a solemn act as pronouncing the final dissolution of marriage in face of the grave allegations contained in the affidavits. The court refused to make the decree *nisi* absolute for the present, and adjourned the further hearing of the case until the 4th August, when the petitioner was ordered to personally attend the court for the purpose of being examined in respect of the charges laid against her.

THE suit brought by the Land Mortgage Bank of India against Mr. Ahmedbhoy Hubibbhoy and another, the proprietors of the Nicol Mill at Colaba, for an injunction and for damages, concluded yesterday, being the twenty-third day of the hearing. Sir Charles Sargent, before whom the case has been heard, reserved his judgment until after the vacation. The costs of the suit, we are told, amount to nearly Rs. 30,000.

CAPTAIN STURROCK, B. V. R., in command of A Company, but who has been absent on furlough for over twelve months, has resigned his commission.

MR. RIVERS THOMPSON, though he is not a new man to Calcutta, and the city must be pretty well known to him, is nevertheless taking special steps to qualify for his position of Lieutenant-Governor by personal inspection of the public institutions which have come under his charge.

THE committee of the Calcutta Trades' Association has entered a protest against the proposed scheme for the construction of deep water docks at Diamond Harbour, as in their opinion the commercial resources of the port of Calcutta do not require to be supplemented in any way, beyond the means possessed by the Port Trust. They further consider that the project would prove most injurious to Calcutta as a port, disorganising the trade, besides causing unnecessary expense to merchants and other importers.

THE Liverpool Regiment, at present at Mian Mir, is reported to be under orders for Ranikhet at the beginning of next cold weather, and the Manchester Regiment, at present at Sialkot, will, according to present arrangements, go home in the first trooper in the autumn.

THE Armenian, Manook, whose cruel usage by Theebaw's officers is mentioned in the telegram we publish elsewhere from Rangoon, was the Kulla Woon, that is, the Governor over foreigners resident in Upper Burmah. He was accused of being in communication with the Nyoungyan Prince.

THE amount subscribed towards the Eden memorial at Calcutta has now reached Rs. 21,500.

THE *Hindu Patriot* :—We stated last week that the Government of India has given its decision against Mr. O'Donnell. We understand that the matter was first referred to the High Court, which proceeding upon the report of Mr. Peacock, has pronounced the *kaifathi* system adopted by Mr. O'Donnell to be illegal and subversive of the ends of justice. The Governor-General-in-Council also justifies the degradation of Mr. O'Donnell from the rank of Joint-Magistrate to that of Assistant Magistrate.

A CORRESPONDENT informs us that should Colonel Lindsay, R. E., proceed to Europe ; Mr. A. Izatt, A.M.I.C.E., Superintending Engineer, now on furlough, will forego the remainder of his leave and return to assume charge of the Southern Mahratta Railways. Mr. Izatt's leave expires on the 22nd December this year. His last post was Chief Engineer on the construction of the Bhaonagar-Gondal Railway in Kathiawar, and before that he superintended the laying of the Dhond and Manmar line. Should the Southern Mahratta Railways be purchased by a company—as is anticipated—the P. W. D. officials now on the construction will be given on loan. The earthwork and embankments of the lines are being vigorously pushed on.

COLONEL DUNDFIDGE, Commandant 40th Bengal N. I., succeed to the Brigade Staff on Brigadier-General Murray vacating his sommand on the 11th instant.

MR. W. C. BENETT has been confirmed in the appointment of Director of Agriculture and Commerce in the North-West Provinces.

PRIMARY schools for European and Eurasian girls in the Punjab appear to be doing well, though as yet little more than a beginning has been made. They are nine in number, one being a Government school at Gujranwala with fourteen children on the rolls at the close of last year, and the other eight aided schools containing 495 girls, with an average attendance of 410. Thirty girls passed the upper primary and fifty-five the lower primary school examination. The total expenditure was Rs. 42,155, of which the Government grant amounted to Rs. 21,1 3, making the total cost of educating each pupil Rs. 85.

THE *Hindu Patriot* observes that the Maharajah of Cooch Behar "is evincing a laudable desire to mix with the native gentry of Calcutta."

A MESSAGE of the 28th ultimo from Peshawur says that Captain Fulfor is still in danger.

THE musketry returns for the Bengal Presidency up to the end of March show the total numbers of those who had completed the course up to that date to have been as follows :—British Cavalry, 2,424 ; British Infantry, 25,231 ; Native Cavalry, 7,757 ; Native Infantry, 41,274. The proportion of marksmen to the number exercised is in the British Infantry 23·32 and in the Native 14·35. In the British Cavalry it is 14·52. The 8th Hussars, 1st Seaforth Highlanders, and 6th B. C. are the leading regiments in each class.

WRITING of the recent Gymkhana races at Simla, which resulted so disastrously for Mr. Sherstone, the *Pioneer's* correspondent remarks :—Annandale may be a charming place for a picnic, or for growing early cauliflowers, or, considering what the rest of Simla is like, for playing cricket, but it is a miserably unfit place for racing. The course has all the faults a course can have. It is not level, the ground is stony and treacherous ; it is so narrow in places that three ponies cannot run abreast, without one of them being on the side of the hill ; and its turns are absolute man-traps. Finally, it is not only vile by nature, regarded as a race course,—but *not* improved by art. If nothing can stop men from racing there, there ought at all events to be a strong white post-and-rails put up all the way round to minimise the inevitable perils of the course as far as possible. Merely to stake out such a turn as that at the lower end is to invite catastrophes.

THE report of the London Missionary Society at Benares for 1881 has been published. The mission sustained a severe loss in the death of the Rev. Mr. Sherring, but his place is ably supplied by the Rev. J. Hewlett, who formerly laboured at Mirzapore. There are about 100 native Christians at Benares in connection with this mission, only a fourth of whom, however, are set down as communicants. There is also a small English church with less than a score of members. There are three English missionaries, one native minister, a catechist, some female workers, and a number of colporteurs and teachers. The mission, besides its work in the city of Benares, carries on itinerary work in the rural neighbourhood. The mission is perhaps best known by its institution, called the High School. The highest number on the roll during 1881 was 446, but from various causes the average attendance was only 300. The educational results were very satisfactory.

MAJOR W. J. W. MUIR, Political Agent, Harowtee and Tonk, tells the following interesting story in his last annual report, regarding the Thakur of Shahpoora :—"In June he came to Deoli, to ask me to endeavour to obtain for him the services of an English governess for his elder son, a boy of five. The question of the child's training and education had formed the subject of much previous conversation, but the idea was entirely the chief's own ; his desire being that the boy should grow up pure and hardy, and be saved from the temptations children in his position are exposed to. He had, I found, considered the subject in all its bearings, and his only stipulation was that advantage should not be taken by the lady to proselytise. He wished the boy to hate a lie, but not to become a Christian. The request was not an easy one to meet, owing to the entire isolation of the charge entailed ; and it was not till December that I succeeded, and not till January that, after a brief visit to Mrs. Muir and myself, the lady entered on her duties. She is a Eurasian lady of education, very highly recommended, and having two daughters. She spends the greater portion of the day at the palace, and when we visited Shahpoora in February, had already won the child's affections. The Rajah wishes she should gradually assume entire charge of him. The experiment is a most interesting one, and one which commands hearty sympathy."

MR. SYUD MAHMOUD'S appointment to the Allahabad High Court does not appear to be a settled thing yet. The *Pioneer* has the following rather vague paragraph on the subject :—"The explanation of the rumours which have been going about lately in reference to the anticipated appointment to the Allahabad High Court, appears to be that while some obstacles which hitherto impeded Mr. Syud Mahmoud's selection have now been smoothed away, the Government of India is by no means indifferent to the risk of making the proposed appointment in any way which would involve a reduction of the existing strength of the court. We should thus be inclined to anticipate with confidence some arrangement which will reconcile the recognition of the just principle with the public interests that are so imperatively require the retention on the Bench of the only judge who could be ousted if Mr. Mahmoud were permanently appointed."

THE *Civil and Military Gazette* :—With reference to the letter from "a Punjab Civilian" on the subject of a transfer to the Bombay Presidency, which appeared in our correspondence columns, we have been made aware of certain facts concerniug the transfer of Messrs. Drew, Cappel, and Johnstone, which it is our duty to lay before the public. We should premise that these gentlemen, by the compulsory change of their Presidency, lose practically all the results of their past service in the Bengal Presidency—some three years and upwards, we believe, which have been spent in acquiring a knowledge of the laws, languages, customs, and procedure of the Punjab. They passed high in the open competition in England, and thereby gained the advantage of choosing their Presidency, denied to those who passed with less distinction. They are now deprived of this advantage, and are arbitrarily placed in a worse position than if they had never gained it. This apparent injustice might have been avoided, even if the transfer was a State necessity, by the selection of more junior men of the terms of 1881-82. But, as pointed out by another correspondent, "a glance at the Civil List will disclose the significant fact that, by the selection of Messrs. Drew, Johnstone, and Cappel for transfer, such selection being vested in the Punjab Government, promotion accrues to Lieutenants Leigh and Egerton, both near relations of the late Lieutenant-Governor of the Punjab, and this promotion of course would not accrue were junior men transferred." This may doubtless be capable of reasonable explanation, and the late Lieutenant-Governor was not a man who was known to lend himself to a job ; but at the same time, it is not unnatural to suppose that the coincidence alluded to should strike those who seek reasons for change. Even the necessity for the transfer has not, so far as we are aware, been ever explained to the public. The needs of the Bombay Presidency must have been, or at all events should have been, known to those officials by whom the proportion of young Civilians allotted to each Presidency has been regulated. Apparently, it would have been far easier, as well as more just, to have manned a sufficient number of the successful candidates for the Civil Service of Bombay at each period of distribution of appointments. We cannot but consider that the gentlemen compulsorily removed have apparent ground for believing that faith has not been kept with them."

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—In Skin Diseases its efficacy is unequalled. Dr. Ross, Medical Officer of Health, Bloomsbury, writes :—" In Pulmonary Consumption, in Scrofulous Affections, and in the various Diseases of the Skin associated with the strumous taint, Dr. de Jongh's Cod Liver Oil is very efficacious in improving nutrition and tone, restoring plumpness to the fatty tissue and a bright colour to the skin very rapidly. The use of Dr. de Jongh's Oil is quite indispensable in the more obstinate and degenerative forms of Skin Disease."—Sold only in capsuled imperial half-pints, pints, and quarts, by all chemists, druggists and storekeepers. Sole Consignees : Ansar, Harford & Co. 77, Strand, London.

THE HYDERABAD RESIDENT.

(FROM OUR OWN CORRESPONDENT.)

SECUNDERABAD, MAY 2.

SIR STEUART BAYLEY leaves us to-day for Simla, to take up the membership of the Viceregal Council vacated by Mr. Rivers Thompson. He departs amidst most general and cordially expressed regrets, for during the twelve months which he has been amongst us he has gained the good-will of all of us, and we are therefore sorry to part with him. His outspoken and frank cordiality was most acceptable after the narrow-minded *régime* of his predecessor. At all times and on all occasions Sir Steuart did his utmost to advance the interests and prospects of those with whom he has been associated during his period of office here. Succeeding an official who was confessedly disliked by the majority of Europeans and natives, he has won for himself that esteem and respect which the Residents of Hyderabad had invariably commanded until Lord Lytton's unfortunate nominee came to rule over us. When Sir Steuart arrived, he found the relations between Sir Salar Jung and the Government of India in a most unsatisfactory condition, caused by the persistent and meddlesome interference of Sir Richard Meade in matters about which, properly speaking, the Resident should have been unconcerned. The nomination of the late Amir-i-Kabir as co-Regent, the unwavering support given by the Resident to his unscrupulous abuse of his power, his treatment of the nephews (Motashum-ud-Dowlah and Bushir-ud-Dowlah), and many other instances which it would be possible to cite, were examples of the policy which had led to the estrangement of one of the most valued of Her Majesty's subjects in India. When Sir Steuart arrived, he had the results of the short-sighted policy on his hands, and I imagine few people envied his position. But difficult as the situation was, the Resident, although new to politics of the position. One of his first acts was to reassure Sir Salar Jung, who had not unnaturally become anxious and uneasy at the treatment which he had experienced from Lord Lytton's Foreign Office and the Resident. The bullying to which he had been subjected had not broken his spirit, as it would have done that of a less hopeful and determined statesman, but he was anxious regarding the future of the State, towards the nominal ruler of which such a sudden reversion of the traditional policy of the Government of India had taken place. On this point, as I have already stated, the new Resident gave the Minister assurances which were most thankfully accepted. The behaviour of the late Amir-i-Kabir and his treatment of his nephews were the matters which next occupied the Resident's attention, and before he left for England on short leave last year he had most emphatically refused to support the co-Regent's high handed proceedings, and some progress towards a settlement of the dispute between him and his nephews had been made. During his absence Mr. Jones of Berar acted for him, and his policy was in complete accordance with Sir Steuart Bayley's. Shortly after the return of the latter from England the Amir-i-Kabir simplified matters by dying. Although he had for some time ceased to have any power or influence in administrative affairs, it was felt that his removal from the scene was not altogether a regrettable occurrence. The titles of the deceased nobleman were at once made the subject of dispute. Koorshid Jah wished to be Amir-i-Kabir and co-Regent as well—so also did Bushir-ud-Dowlah. But the Resident, without any solicitation whatever from, or on behalf of, Sir Salar Jung, recommended in the strongest possible manner that he should be allowed to assume sole charge of the Government until the young Nizam came of age. Sir Steuart's recommendation met with the approval of the Government of India, and thus the reconciliation which was begun by his appointment was completed by Sir Salar's installation as Regent of his young master's dominions. The appointment was hailed with delight by all who have any knowledge of the Regent, and the incalculable benefits his Government has bestowed on the State of Hyderabad. It was felt to be a repudiation of the policy of Lord Ripon's predecessor towards the Minister, and it was accepted as a guarantee of cordial relations between the two Governments in future. This is not the place in which to enter upon a retrospective view of Sir Salar's career. He has long since made his mark as a politician and an administrator, and now that he is unembarrassed by official business and unharassed by the intrigues of a discontented colleague, it is hoped that he will be able to initiate and carry out many reforms of which the State stands in great need. The co-Regency question disposed of, the distribution of the late Amir-i-Kabir's titles and estates next occupied the Resident's attention. After a most careful investigation the Minister comunicated his decision in the matter to the Resident. I sent you the substance of it some time since, and it is therefore unnecessary for me to recapitulate it here. The Resident gave the decision his support, and a stated period was allowed within which the Amir-i-Kabir's sons and his nephew might, if they were dissatisfied with the decision, appeal to the Government of India. Petitions were presented by the three claimants, and I am now in a position to inform you that a few days since the Government of India, after considering the appeals, refused to interfere with the Minister's decision, which will therefore be enforced without any further delay. In fact, Koorshid Jah has already been installed as the head of the family with the titles of Shums-ul-Oomrah, Amir i-Kabir. The foregoing are the principal events in which Sir Steuart Bayley has participated during his period of office here. Great rumours of an important scheme for the reform of the administration to which the Resident has given his sanction, but as I am not sufficiently well informed at present to comment upon the matter, I shall make it the subject of a future letter. It would be superfluous to say that he has been a successful Resident. He has cemented and restored the cordial relationship between Sir Salar and the Imperial Government which had been so rudely interrupted under the *régime* of his predecessor. He has given the Minister his cordial support in all matters tending towards the improvement and advancement of the State, and finally, as I said at the commencement of this letter, he has gained the esteem of all, and for this reason we regret that he is leaving us. We hope that his successor may prove as worthy. No appointment has, I believe, been made. Mr. Fitzgerald has been selected to act until a successor has been appointed. The choice appears to lie between Colonel Bradford and Mr. Jones, both of whom are at present in England. The latter officer, who has officiated as Resident on several occasions, is supposed to have the best chance of obtaining the post, as Colonel Bradford is understood to prefer the breezy heights of Mount Aboo in the summer to the fierce heat of the Deccan plateau. Mr. Jones would be a popular and worthy successor to the retiring Resident.

DINNER TO MR. F. MATHEW.

THE officers of the B. B. and C. Railway Company on Wednesday evening gave a dinner to Mr. F. Mathew, Agent and Chief Engineer of the company, who leaves for England by to-day's mail-steamer. Mr. Slater, Chief Resident Engineer, presided, and about 60 gentlemen were present.

The loyal toasts having been honoured,

The Chairman said it was with mingled feelings of regret and pleasure that he presided on that occasion and proposed the toast of the evening, "The health of Mr. Mathew." (Loud applause.) It was more than 24 years since he first met his friend, Mr. Mathew, in that elysium of the jungle, Dhanu (laughter)—a swamp known, he supposed, to many of them—and the associations of so many years would not be easily removed. Mr. Mathew served the company in various capacities, rising from one office to another, until he gained the highest possible post under the company in India. Whether as friend, colleague, or chief, he had been—and his (the Chairman) as a member of the staff could speak for himself personally—all that the staff could have desired. (Applause.) He had devoted himself heart and soul, not alone to doing his duty in promoting the interests of the company, but in forwarding the interest of all connected with it. They all, he was sure, wished Mr. Mathew every prosperity, health, and happiness in the new sphere upon which he was about to enter. (Cheers.)

Mr. Mathew, in acknowledging the toast of his health, said.—A most serious drawback to us Europeans in our Indian career is that it involves, in most cases, two terms of banishment—the first when young in the years and high in hopes we put from home, and in the sad experience of many of us in doing so we part for ever with much which was most precious to us. I well remember, twenty-four years ago, how delightful the prospect of coming to India appeared to me. The Gorgeous East of early imagination was a very splendid land indeed, but the illusions soon wore off from experience of the reality, and in my early times my most earnest wish was to return to my own country. I then thought that nothing could induce me to remain in India after the five years for which I had engaged to the Railway Company, but long before that period was passed my views had changed. I had the great good fortune of finding that many of my associates in the service were gentlemen with whom it was a pleasure to be associated, and the work in which we were engaged was of great interest. Engaged in surveys as we often were in remote jungles, we felt that we were working to a good purpose, and, when "toil remitting lent its turn to play," then we form'd amongst ourselves a friendly society. Of the old friends of that early time, I have the pleasure to see several round this table, and after an uninterrupted friendship of this long period I am indeed grateful and proud to be now their guest. After the long period of a quarter of a century in India, during which my home ties have been sadly reduced, I feel that I am now entering upon a second period of banishment in leaving so many whom I value, so much in which I have an earnest interest. I would regret this separation still more, but that I hope, although at a distance, still to maintain an active interest in my old friends of the B. B. and C. I. Railway, and in the enterprises of the company. It is to me a further source of gratification that in leaving you I will be succeeded by my old friend, Mr. Slater, as Chief Resident Engineer and his colleagues, my friends Mr. Hargrave and Mr. O'Connell, Resident Engineers, and my friend Mr. Wood as Agent. As an engineer, I naturally speak of the engineers first, but the Agent of this company is, on the staff, of course the first in place. But in our service we have not been much regardful of such distinction ; it has been our pride to be a brotherhood working for a common purpose. On this and many other occasions my thanks have been due to my friend Mr. Carroll and the officers of his department, to Mr. Duxbury and the traffic staff, and to Mr. O'Connell, and indeed to all. If I do not speak of each by name, I know this will not be misunderstood by my old friends who have paid me honour on my departure. It might, indeed, look like want of gratitude if I did not express my acknowledgments to our friends of the Royal Engineers for the courtesy, fairness, and sympathy which, in all transactions, compilations, and difficulties, storms and sunshine, of which we have had our share, they have exercised the control of Government. From an early time the officers of the Consulting Engineers' Department have given us support and advice, and there are many amongst them of whom we have pleasant recollections,—General Rivers and General Trevor in past years, and now Colonel Hancock. It would not have been possible that any set of gentlemen could have exercised the Government control with more consideration, liberality, and I will presume to say, with more efficiency, Gentlemen, I have many a time attended at a farewell dinner and regretted a departing friend, but never have felt as I do. I was then wishing good-bye to one, but I am now doing so to many, and my regrets are multiplied by your numbers. Gentlemen, I beg most sincerely to thank you for the honour which you have done me.

Colonel Hancock said the toast he had to propose was "Prosperity to the B. B. and C. I. Railway Company." His own personal connection with that company had extended over a long time, for it was 22 years since he was appointed Deputy Consulting Engineer and joined at Surat knowing nothing whetever about his business. (Laughter.) In acknowledging the very kind way in which Mr. Mathew had referred to him and to the department generally, he begged to say that personally he was much indebted to the officers of the B. B. and C. I. Railway for the way in which they had supported their decisions. He remembered the old day when it had been the fashion to term the Consulting Engineer for Railways the insulting engineer (laughter), but he was glad to say that was a thing of the past, and their relations now were as satisfactory as possible, and as cordial as could be, not only with the B. B. and C. I., but the G. I. P. Railway. Looking back over the last 20 years, one could not say that the development of the B. B. and C. I. had been such as they when they started expected it would be. They then thought its operations would long ere this have extended over the area which was defined in the programme of Col. Pickersgill, whose name would ever be held in affectionate remembrance by all the officers of the B. B. and C. I., and all those with whom he was in any way connected. He was a man whose marvellous foresight, whose integrity of purpose and indefatigable industry, made him a leader among the pioneers of railway enterprise in India. (Applause.) As he said before, they could not say that the railway had developed as they hoped it would. The history of the circumstances which led to the Rajputana and Central India Railways being carried out as State lines on the narrow gauge instead of an extension of the B.B. and C.I. line on the broad gauge, was probably pretty well known to most of them, and it was too long to narrate on that occasion. Any one who desired to read the history of the gauges might do so with great advantage in the Administration Report of Indian Railways recently published by Colonel William Trevor. It was through no fault of the officers of the B.B. and C.I. Railway that the construction of the whole of those railways was not entrusted to the company. He might give it as his own opinion, which he believed was shared by most Bombay men, that it would have been a better thing for the Empire, as it would undoubtedly have been a better thing for local interests, if the construction and control of those railways had been entrusted to the B. B. and C. I. Company. (Applause.) As matters stood, they had to make the best of the railways as they were, and although they might have had a better, still that which existed was a good line, capable of vast development. The Rajputana Railway, though only opened at the end of 1880, did in 1881 pay 5¾ per cent. on its capital, and taking the official year commencing March, 1881, and ending on the 1st March last, it paid 5¾ per cent. The management which had succeeded in effecting these results could not be a bad one, although he was quite aware that Bombay thought it had reason to complain that it had been in a measure left out in the cold in regard to the development of the Rajputana Railway. He thought that as the capabilities of the railway developed, and the time came for reducing the rates and increasing the traffic, Bombay would share more largely than it had done hitherto in the advantages of having direct communication through the Rajputana Railway with the north of India. They had probably heard rumours of impending changes. It had been said that a private company was in treaty for the purchase of the Rajputana Railway. Well, he was not in a position to say what form the negotiations were likely to take, or what the result was likely to be. He did not think anybody was in this moment in a position to say ; but he would take that opportunity of expressing a hope that should it be decided by Government that it would be expedient to sever the connection of the State with the Rajputana Railway, the management might come into the hands of their old friends, the B. B. and C. I. Company. (Applause.) That brought him to the toast he had to propose, "Prosperity to the company." He thought the company was in safe hands, and he was glad to hear that its old chairman, Col. French, was still hale and hearty, and he would, he trusted, for many years continue to occupy the chair he had so ably filled ever since the company was started. He was also exceedingly glad that Major-General John Trevor, whose reputation as a railway administrator was established throughout India, was now a member of the Board. Col. Hancock then coupled with the toast the name of Mr. Wood, an old friend, whom they were all glad to see again in his new capacity of Agent. (Applause.)

Mr. Wood said that if he had consulted his personal feelings only, he would rather not have appealed to them in his present position as the most prominent object ; he would much have preferred to remain a silent member of that most influential gathering who had honoured his much respected and old friend, Mr. Mathew. He was, however, proud to have the privilege of acknowledging the kindly terms in which Colonel Hancock had spoken of the company which he had just been appointed to represent in this country. He had the advantage of knowing Colonel Hancock and seeing the great interest he had taken in the B. B. and C. I. line during the last 16 or 17 years. Colonel Hancock said that the company had had disappointments, and they undoubtedly had ; but he had come out to India now in the belief that they had turned the corner, and that the career of prosperity wished for it was now before the line. He did not wish to enter into any point of controversy, as that was not the place for it ; he only wished to say that from his knowledge of the Board of Directors, he knew what they wished was that the B. B. and C. I. Company should take its fair share in any measure that might be necessary to render communication with the North-West more profitable and advantageous to Bombay. They felt that the Baroda line and Bombay had very much in common, and if the Baroda Company could, as he believed they could, further develope the commerce of Bombay in connection with the North-West, they were anxious and ready to do so ; but of course they had to act in partnership with others. No doubt the difficulties of the present moment would be overcome in time, and prosperity would come to themselves and advantage to the port. He came to the country a couple of days ago, so that he hardly knew the changes that had taken place. He thanked them, on behalf of the company and the directors for the honour done to them. (Applause.)

Mr. Geary said he had been requested to propose a toast in which he thought they would all concur with enthusiasm—"Success to railway enterprise in India." (Applause.) The guest of the evening, in the course of his speech, had called to mind the state of communication in India only six years ago. It then took a week of toil and discomfort to get 80 miles ; but at the present time a week sufficed to take a man from Bombay to Calcutta and back, or from the north to the extreme south of the peninsula. India had been in the last quarter of a century transformed through the labours of such men as the guest of that evening and others of his profession. In was no disparagement—but rather the reverse—to them to say that what they had done, and the foundations they had laid, were but the commencement of a work which would revolutionise India. (Applause.) It was, he thought, a complaint, and a complaint which he hoped would be constantly reiterated, that railway development had not attained anything like the proportions which the interests and requirements of the country required. The Chamber of Commerce, whose representative, Mr. Macaulay, he saw at that table, complained justly and eloquently that whereas the United Kingdom with an area of 12,000 square miles had 17,000 miles of railway, India, which contained 150,000 square miles of territory, had only 9,000 miles of railway communications. That ought to incite them to further efforts, but it ought not to blind them to the progress already accomplished. They should not lose sight of the fact that India alone of Asiatic countries possessed railways. In China with a population double that of India—an industrious and ingenious population—and a Government which was centralised and powerful, they had not got a single mile of railway at the present time in the whole country. A line of a dozen miles or so, constructed by the "foreign devils," was hastily and industriously dug up for fear it should prove the thin edge of the wedge of Western civilisation. (Laughter.) Breechloaders and Krupp guns and the latest thing in gun-boats were imported by China, but railways were kept out. In India, though by the introduction of the company, and in forwarding the interest of all connected with it. They all, he was sure, wished Mr. Mathew every prosperity, health, and happiness in the new sphere upon which he was about to enter. (Cheers.)

Mr. Mathew, in acknowledging the toast of his health, said.—A most serious drawback to us Europeans in our Indian career is that it involves, in most cases, two terms of banishment—the first when young in the years and high in hopes we put from home, and in the sad experience of many of us in doing so we part for ever with much which was most precious to us. I well remember, twenty-four years ago, how delightful the prospect of coming to India appeared to me. The Gorgeous East of early imagination was a very splendid land indeed, but the illusions soon wore off from experience of the reality, and in my early times my most earnest wish was to return to my own country. I then thought that nothing could induce me to remain in India after the five years for which I had engaged to the Railway Company, but long before that period was passed my views had changed. I had the great good fortune of finding that many of my associates in the service were gentlemen with whom it was a pleasure to be associated, and the work in which we were engaged was of great interest. Engaged in surveys as we often were in remote jungles, we felt that we were working to a good purpose, and, when "toil remitting lent its turn to play," then we form'd amongst ourselves a friendly society. Of the old friends of that early time, I have the pleasure to see several round this table, and after an uninterrupted friendship of this long period I am indeed grateful and proud to be now their guest. After the long period of a quarter of a century in India, during which my home ties have been sadly reduced, I feel that I am now entering upon a second period of banishment in leaving so many whom I value, so much in which I have an earnest interest. I would regret this separation still more, but that I hope, although at a distance, still to maintain an active interest in my old friends of the B. B. and C. I. Railway, and in the enterprises of the company. It is to me a further source of gratification that in leaving you I will be succeeded by my old friend, Mr. Slater, as Chief Resident Engineer and his colleagues, my friends Mr. Hargrave and Mr. O'Connell, Resident Engineers, and my friend Mr. Wood as Agent. As an engineer, I naturally speak of the engineers first, but the Agent of this company is, on the staff, of course the first in place. But in our service we have not been much regardful of such distinction ; it has been our pride to be a brotherhood working for a common purpose. On this and many other occasions upon three separate charges, of the theft of copper vessels, wearing apparel, and cash of the collective value of Rs. 10-8, the property of three different persons. He was sentenced to an accumulated term of six months' rigorous imprisonment.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 24th April was Rs. 83,77,629. In addition silver received during the week, Rs. 33,57,607. New coin paid during the week, Rs. 16,40,082. The balance left was Rs. 1,00,95,145. There is in addition silver bullion worth Rs. 88,05,827 belonging to private individuals deposited in the Mint vaults, and awaiting assay.

STREET ACCIDENTS.—Boojee Esmail, a Mahomedan child, aged 5 years, fell from the window of the second story of a house in New Memon-wadda, sustaining serious injuries to the head and a compound fracture of the left elbow-joint. The child was taken to the G. T. Hospital, and lies in a precarious state.—Byroo Soolfana, a groom of the Bombay Tramway stables, Colaba, while going to give one of the horses a drink, received a kick over the face causing a fracture of the lower jaw. He is under treatment at the above hospital.

PARSEE THEATRICALS.—The Elphinstone Dramatic Club on Wednesday evening performed two amusing pieces before a full house at the Victoria Theatre. The singing of the European actress and the acting of Mr. Ruttonjee Nowrojee Minwala were particularly attractive. The after piece, representing a fancy-ball, excited considerable amusement. This evening they represent the popular opera of "Indur Sabha," to be followed by an original farce called, "Who was the Murderer ?"

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended Tuesday, 2nd May, was 379, being 28 less than in the previous week, 84 less than the week ending 3rd May, 1881, and 188 less than the mean of the corresponding period in the preceding five years. During the week 306 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 23·74. There were 61 deaths from remittent fever, being the same number as in the previous week, and 56 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 55, 14, and 6 respectively, as compared with 73, 34, and 11 last year. There were 33 deaths from measles last week as compared to 30 in the week previous.

COTTON MILLS AT BROACH.—On account of short produce of cotton this season several ginning factories have been closed at Broach.—*Broach samachar.*

PASSENGERS BY THE HOMEWRAD MAIL.

THE P. and O. Co.'s s. s. Venetia, Captain A. B. Daniell, will sail to-day for Aden and Suez with the English mails and the following passengers :—

FOR LONDON.

Mr. and Mrs. J. Robson.
Mr. F. G. Collins.
Mr. J. C. Veasy.
Mrs. Allen and infant.
Mr. W. Pym.
Mr. F. Debrove.
Mr. J. Hayward.
Dr. and Mrs. Young, 2 children and 2 infants.
Major C. H. J. Lassalle.
Mr. J. B. Wardhurst.
Mr. J. C. Power.
Capt. H. F. Nares.
Mr. J. Mangnall.

FOR BRINDISI.

Miss Carter.
Major F. Curric.
Mr. A. B. Marriott and friend.
Mr. R. Fischer.
Mr. A. W. Burke.
Mr. J. M. Pears.
Mr. A. J. Oldham.
Lt. P. E. Henderson.

FOR VENICE.

Mr. and Mrs. Rustrick.
Mr. S. M. Coard.
Mrs. and Miss Mathew and two children.
Mr. D. K. Hornán.
Mr. W. F. Mellin.
Mr. and Mrs. J. M. Coates.
Col. and Mrs. Liston and child.
Major C. E. Macaulay.

For Malta.—Mr. and Mrs. F. Venning.

FOR ADEN.

Mr. Bapoojee Dinshaw.
Mr. Manockjee Ruttonjee.
Miss Cooverbai
Miss Manockbai.

The following passages have been engaged by the s. s. Clyde, Captain E. W. Edmond, 12th May.

FOR LONDON.

Mr. O. S. Stack.
Mrs. Price and 2 daughters, A gentleman.
Mr. D. J. Medine.
Mr

HIGH COURT.—MAY 4.

(Before the Hon'ble Sir CHARLES SARGENT.)

ALLEGED NUISANCE AT THE NICOL MILL.

THE LAND MORTGAGE BANK OF INDIA *vs.* AHMEDBHOY HUBIBBHOY AND ANOTHER.

MR. INVERARITY and Mr. Anderson, instructed by Messrs. Tobin and Roughton, appeared for the plaintiffs; and Mr. Lang and Mr. Russell, instructed by Messrs. Jefferson, Bhaishanker, and Dinshaw, appeared for the defendants.

Mr. Inverarity, in continuing his reply on behalf of the plaintiffs, argued that the *onus* of proving that they were not entitled to an injunction lay upon the other side. As soon as he had shown that there was pollution of the light and air of the plaintiffs, and that there was a nuisance, they were, according to the authorities cited by the learned counsel, entitled to an injunction; and it was for the other side to prove that they were not so entitled. The learned counsel could show from letters received from home that the plaintiffs never desired to get rid of the Buildings in order to extort money either from the "wealthy native" (Mr. Ahmedbhoy) or anybody else. As to the question, would pecuniary compensation be an adequate relief, the learned counsel said that would wholly depend upon the construction that was put upon the amount that was awarded as compensation. The assessment of damages would depend upon a great variety of circumstances under which it was impossible to see what could happen a few years hence. When Messrs. Hewson and Batchelor had built their seven cottages, which were expected to yield 12 per cent. upon the capital, who could say how far the rents of the Grant Buildings would go down? Pecuniary compensation would not be a proper relief in such a case. In ten years hence, with the abovementioned cottages yielding a large percentage, it was not improbable that the plaintiffs' Buildings might be deserted. Owing to the scarcity of accommodation in the Fort and elsewhere, people did go at present to the Grant Buildings, got accustomed to the noise of the mill, &c., and put up with the nuisance caused by the defendants. But who could say that, with better and more extended accommodation provided for them, the tenants would not be only too glad, some short time, to desert their present quarters? It was quite clear there was no standard by which they could ascertain what the damages were. The sum the plaintiffs had lost in one year in rent would be different in another year. The yearly rental in 1868 was Rs. 47,000 as it was now Rs. 33,000. It was found that since the mill began to work nearly every tenant in Nos. 3 and 4 of the eastern block had been changing rooms, which was not the case before that time. The rental of a particular year would depend upon the presence of competition, and a variety of circumstances which might exist in one year and be absent in another. The learned counsel therefore affirmed that there could be no standard for awarding damages. The point of acquiescence and delay had been given up by Mr. Pigot, and he (Mr. Inverarity) did not think it was necessary for him to cite any more authorities on that point. Mr. Pigot, finding that the authorities were not on his side on points of law, had sought to create a prejudice against the plaintiffs by representing his client, Ahmedbhoy Hubibbhoy, as "an injured innocent," who, notwithstanding his great wealth, had been a patient sufferer from the attempts of the plaintiffs to extort money from him by forcing a purchase of their Buildings upon him at an exorbitant price. Mr. Inverarity referred to several letters of the home board to show that up to the 1st November, 1878, that is, for four years after the commencement of the mill, there was not a syllable in those letters indicating a desire to exact heavy damages or put pressure upon the defendants to purchase the Buildings. The plaintiffs' only anxiety was that their valuable property might not suffer from an extension of the business of the mill. There was nothing in the letters, the learned counsel averred, which could in any way support the idea of extortion. Mr. Pigot had assumed that the effect of an injunction would be to stop the mill. Mr. Inverarity argued that such could not be the case. An injunction with regard to smoke could do the defendants no harm. The only expense they would be put to would be to spend Rs. 400 or Rs. 500 in adding about 50 feet to the chimney, and employing additional stokers. Mr. James Scott was entirely wrong in stating that, with Cardiff coal, which was smokeless, there could be no smoke, and that bad stoking could have no effect. What Mr. Drewet stated was far more probably correct, namely, that with proper stoking and good Cardiff coal the smoke could be reduced. Then an injunction as to fluff would only put the defendants to the expense of purchasing a new donkey engine, the old one, according to Mr. DeMonte, getting frequently out of order. As to the noise, Mr. Inverarity said it could be got rid of by substituting rope-driving at a cost of about Rs. 2,000; and it would in the end be far more economical than the bevilled gearing at present in use. To make the substitution, it would not be necessary to stop the mill, according to Mr. Drewet, for more than a month. Ahmedbhoy had been thinking at one time of putting in rope-driving; and an injunction which might force him to substitute rope-driving could do him no great harm. Under the circumstances, the learned counsel submitted that the question of an injunction was reduced to the question of the expenditure of more or less money by the defendants, which would release the plaintiffs' property from the causes that now depreciated it in value. As to the proposed increase of the machinery, the learned counsel said it was impossible to estimate now what effect it would have upon reducing the value of the plaintiffs' property. The divisions of the western block which were not affected by the nuisance would probably in that event be as much depreciated in value as the divisions of the eastern block. The additional spindles, the learned counsel submitted, would be sure to cause a serious nuisance, if none at present existed. The learned counsel then read from, and commented upon, the evidence of the witnesses called for the defendants, remarking that the balance of testimony upon all important points was in favour of the plaintiffs.

The case closed here on the twenty-third day of hearing. His Lordship said he would give his judgment after the vacation.

(Before the Hon'ble Mr. Justice BAYLEY in chambers.)

JEEWA KISON *vs.* VENAYEKRAO RAMCHUNDRA LUXMONJEE.

MR. KHANDERAO, solicitor, presented a plaint claiming about Rs. 2,100, and costs, being the amount of an adjusted and signed account, in respect of goods sold and delivered by the plaintiff to the defendant, who is a member of the Municipal Corporation.

His Lordship accepted the plaint as a short cause.

A BHATTIA LADY'S APPLICATION TO BE EXAMINED ON COMMISSION.

DAYAL JAIRAJ AND ANOTHER *vs.* KESSOWJEE JADOWJEE.

SOME time ago a summons was granted by his Lordship, calling upon the second plaintiff, Pemavahoo, who is the wife of Dayal Jairaj, to show cause why she should not appear personally in court for the purpose of giving evidence at the hearing of the suit.

To-day Mr. Bhaishankar appeared for Pemavahoo to show cause against the summons; and Mr. Prescot, of Messrs. Prescot and Winter, appeared for the defendant in support of the summons.

Mr. Bhaishankar said that his client was a Bhattia lady, who stated in her affidavit that by the custom of her caste women of respectable families could not appear and give evidence in a court of law. Pemavahoo further stated that Shamavahoo, widow of the late Goculdas Tejpal, a member of the same family and caste as herself, had been examined on commission at her house in respect of a certain suit. Pemavahoo said she was willing to be examined by a commission at her house.

Mr. Prescot said that the defendant had made an affidavit, stating among other things that Shamavahoo had appeared in court for three consecutive days in a suit which she had brought against the late Dwarkadas Vussonjee.

His Lordship remarked that the defendant Kessowjee, who was looked upon as the head of his caste, denied the right of Pemavahoo to be examined on commission, on the ground of custom. His Lordship made the summons absolute. Costs to be costs in the cause.

THE CANARA LAND CASE.

VISCOUNTE BAPOOJEE AND OTHERS *vs.* THE GOVERNMENT OF BOMBAY.

MR. LITTLE, of Messrs. Hearn, Cleveland, and Little, appeared for the defendants, and applied for an order directing the Prothonotary to issue a notice to the plaintiffs, under section 248 of the Civil Procedure Code, calling upon the them to show cause why an order dated the 9th March, 1881, should not be executed.

This was a suit which was heard some years ago, for the recovery of land situated at Canara. On the 9th March, 1881, the Appeal Court, consisting of Sir Charles Sargent and Mr. Justice Melvill, directed the plaintiffs to pay the defendants the taxed costs of appeal to Her Majesty in the Privy Council. The appeal made by the plaintiffs was dismissed. The taxed costs amounted to Rs. 1,150, which the plaintiffs had not yet paid.

His Lordship made the order applied for.

BENGAL.

SUICIDE.—On Sunday morning at about eight o'clock, a native constable on duty near the Kooloparah tank, in Ekbalpore, discovered the body of an European floating in the tank. From enquiries made by the Police it appeared that the corpse was that of a European named Richard Chapple, formerly Chief Engineer in the employ of the I. G. S. N. Company, and lately attached to the B. S. Maharani. The unfortunate man, it appears, had, for some time past, been out of employ, and for the last two weeks had often hinted that he would, some day or other, put an end to himself. An inquest was held and the jurors, residents of the locality and friends, returned a verdict that "the deceased committed suicide by drowning, being at the time in a depressed state of mind caused by want of employment."—*Englishman.*

EXTENSIVE FIRE.—On Monday evening at about 7 o'clock a report spread rapidly though the town that the premises of the Medical College Hospital were on fire. Mr. H.G. Wilkins, the Deputy Commissioner of Police, and Superintendent Percy, with the fire brigade and engines, started for the spot. While *en route* they were informed that the fire, which was raging fiercely, being fanned by a strong breeze was spreading though the neighbourhood. Every possible speed was made, and on arriving at the spot, the brigade distributed themselves in such a manner as to work with effect. All were present and Deputy Commissioner gave the word, and within a couple of hours there was nothing of even a smouldering ember discernible. Over fifty houses, all of bamboo and thatch construction, were consumed. No lives were lost—not even did any injury occur to anybody. The great danger which was averted was that apprehended for the Medical College buildings immediately in the rear of which the fire took place.—*Statesman.*

THE NEW LIEUTENANT-GOVERNOR.—Yesterday (Monday) morning the Lieutenant-Governor, accompanied by Captain Schalch and Mr. Barnes, visited the Alipur Reformatory. The Hon'ble F. Prinsep, the President of the Reformatory Committee, Lethbridge, and Lieutenant-Colonel Beadon received his Honor and showed him over the building. There are, it seems, 105 boys in the Reformatory, all of them receiving a training and learning trades to suit them for useful occupations in after life. The boys belonging to up-country districts are to be placed together in a new Reformatory which, it is intended, should be built at Hazaribagh. In the evening His Honor visited the Sibpur College, proceeding by a steam launch to the Botanical Gardens and driving thence to the college. This morning at 7 the Tramway Company will take the Lieutenant-Governor for a drive through the city, starting from the Cathedral and going along Chauringhi. The new steam-engine will be used for the occasion.—*Englishman.*

DR. J. COLLIS BROWNE'S CHLORODYNE,
THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff, to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in more terrible forms of Chorea itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Dr. Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is A DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharmaceutical Society of Great Britain, His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which he regretted to say had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.
Sole Manufacturer—J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London

OFFICES:
6, Rampart Row.

THIS Company has been formed to purchase and take over the Cotton Spinning Works, Properties, and Machinery now in course of erection at Chinchpoogly, on the Island of Bombay, and belonging to Messrs. James Scott & Co., Merchants, 6, Rampart Row, as the vendors on the one part and on behalf of the Company of the other part, dated the 3rd of April, 1882. Copies of the abovementioned Agreement and of the Memorandum and Articles of Association can be seen at the offices of the Solicitors in Bombay, and all other information required by intending Investors can be obtained at the offices of the Agents, 6, Rampart Row.

The Directors have resolved to spin the lower numbers of yarns, from the cheapest class of cotton, mixed with the better class of waste, which other Companies cannot use for the finer counts. Taking into consideration the low price of the raw material, coupled with a great saving in labour, a very handsome profit is expected.

The position of this Company is entirely exceptional, as the Agents only get 10 per cent. upon the net profits declared. 500 shares have already been subscribed, the other [illegible] offered to the public.

WALLACE & Co., Agents,
4, Elphinstone Circle, Bombay.

THE INDIAN GUARANTEE AND SURETYSHIP ASSOCIATION, Limited,

IS the FIRST PUBLIC COMPANY established in India, to provide Security against Losses arising through dishonesty of persons holding situations of trust, and to obviate the inconveniences and defects of Suretyship by Private Bondsmen.

The Security of the Association is now generally adopted for European and Native Officer under Government and Public Companies.

Friends and Relations are relieved of the fear of those pecuniary losses to which persons are exposed who become responsible for the acts of others.

Moderate rates according to the nature of the Employment on the amount of security required.

Premiums periodically reduced.

For Prospectuses and Proposal Forms, apply to
D. McLAUCHLAN SLATER, F.I. A.,
2, Elphinstone Circle, Bombay. Secretary.

STANDARD POLICIES.

WHEN an Indian Policyholder of the Standard Life Office retires to England his Policy at once ranks as an English Sterling Policy at par of Exchange, and each Rs. 1,000 assured is treated as £100 Sterling—without application to the Directors or other forms. This applies to Bonuses declared in Rupees in India as well as to Sums Assured; and is quite independent of the fact whether all previous premiums have been paid in India or not. The premium is at the same time reduced to the English rate at the age at which the Assurance was originally effected—irrespective of health.

THOMAS LANG,
April, 1882. Secretary, Bombay branch.

STANDARD LIFE OFFICE.

INVESTED FUNDS—Five millions and a-half sterling.

REVENUE—Eight hundred thousand pounds sterling.
